Code's Language Features

Features	Languages
Syntax coloring, bracket matching	Batch, C++, Clojure, Coffee Script, DockerFile, F#, Go, Jade, Java, HandleBars, Ini, Lua, Makefile, Markdown , Objective-C, Perl, PHP, PowerShell, Python, R, Razor, Ruby, Rust, SQL, Visual Basic, XML
	Basics
+ IntelliSense, linting, outline	CSS , HTML , JavaScript , JSON , Less , Sass
	Add some intelligent help
+ Refactoring, find all references	C# , TypeScript
	Richest experience

HTML

Syntax highlighting

Emmet makes it easy to code fast

Angular help

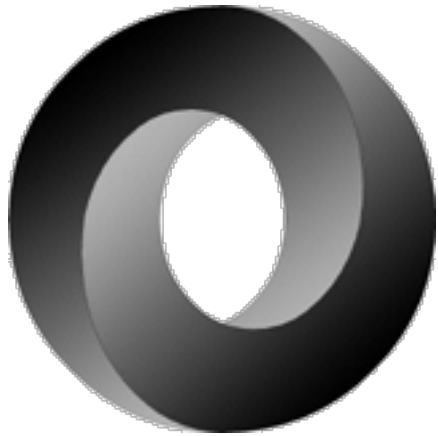

CSS , Less, and Sass

Previews

Intellisense

References

JSON

Syntax highlighting

Schemas

Go to symbol

Intellisense, especially for bower and npm

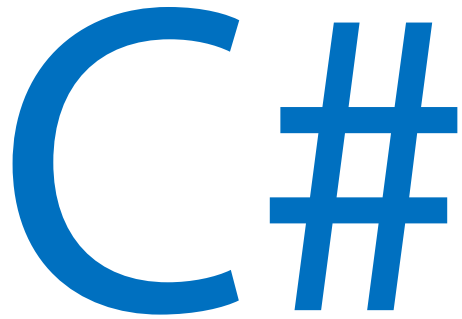

Markdown

Live preview with CMD+SHIFT+V

Customize your markdown CSS

ASP.NET and C#

A large, stylized blue logo consisting of the letter 'C' followed by a hash symbol '#', representing the C# programming language.

Rich experience

Intellisense

References

Symbols

Running commands

JavaScript and TypeScript

ES5

Formatting, outlining, snippets

ES6

Intellisense with TypeScript typings files

TypeScript

References and symbols
